

We play great tunes from every era. You have to see this band live to truly understand why we are called the "World's Greatest Party Band"! Bosco will get you out on the dance floor with a huge list of cover songs ranging from the 60's through today!

Bosco was founded on the premise that life is too short... make it a party. Bosco was created by a group of friends that have played together on and off in original bands for the last decade. Our onstage chemistry is undeniable.
